## FIRE FIEND!

The Duffie Block Devoured by the Flames.

Masonic Hall Also Burned—A List of the Losers.

Another destructive fire has visited our village and another old landmark has been destroyed. Early Sunday morning between one and two o'clock the fire bell aroused our sleeping citizens to activity, and soon the blazing Duffie block was the scene of intense excitement. A high wind had prevailed during the evening and rain had fallen, but at this time it was calm and a full moon made it as light as day. What seemed strange was that in two hours it was again raining and the wind had risen into a gale. Call it what you like a large number of buildings were in all probability saved by the wind going down.

The origin of the fire was a mystery as so many fires are, no one seemingly can say just where it started, but the upper story appeared to be ablaze first and in a short time the whole block was burned slick and clean to the ground.

The Duffie block consisted of two stores and floors above, belonging to J. S. Duffie, and a third store with hall above owned by the Masons. The Masons' store was occupied by Thos. Wilson & Son with furniture and as a residence. The middle store was filled with machinery and the south store had just been fitted up as a laundry which was to have been opened the next day. W. B. Saville occupied a room upstairs in the north building with paints, oils, tools, etc. Everything was gotten out from the furniture store and the laundry, but nothing was saved from the lodge rooms excepting the charter, and Henry Pearce was the man to scale the ladder, break through the window and grope through fire and smoke to rescue it. The Mason's loss was about \$2,000 with insurance on the building \$1,200 and on contents \$200. Thos. Wilson & Son's loss was \$200, covered by insurance. Loss to J. S. Duffie on building about \$1,500, with no insurance. To James O'Rourke, the laundry man, \$30, no insurance. Will Saville lost about \$60 worth of stuff with no insurance. A small wooden building adjoining on the north, occupied by Myron Arnold, John and Hugh Schram, carpenters, was also burned and the next small frame building was torn down. The corner now presents a very bare appearance, but is a splendid site for a brick block.

## FELL FROM THE CARS.

Narrow Escape of Will Bettes in the F. & P. M. Yards.

Will Bettes, a former Yale boy, now an F. & P. M. brakeman, had a miraculous escape from being cut in two at this place Monday morning by the freight train.

A car was being shunted in on the siding to Holden & Wharton's elevator. Bettes reached in between the cars and raised the lever of the patent coupler. Supposing the car uncoupled he then mounted to the top to set the brake when the car arrived at the proper door. When the train had received sufficient momentum one of the brakemen "swung down," that is signalled the engineer to stop so as to send Bettes' car along. When the train stopped, Bettes' car, which was still connected, stopped with the rest, thereby throwing him off and across the track in front of the train. The fall stunned him somewhat but he had presence of mind enough to roll out over the rail with the exception of his right foot which was injured by the wheel. The heavy sole of his shoe saved it from crushing.

He was carried over to the Martin Hotel and his face, which was badly bruised, and foot was dressed by Dr. Wight. He, accompanied by Fred Palmer, left for Detroit on the next train where he holds a hospital ticket. Fred left him at the Detroit Sanitarium doing as nicely as can be expected. Will also holds an accident policy.

O, Ye Blind!

If you could select the pure gold from the dross, the wheat from the chaff, the good from the bad, you would never make the mistake of taking any other remedy than Foley's Sarsaparilla for blood disorders. Trial size, 50c.
